New for 2025, GM has provided an updated database for Dealers to reach a wider range of customers, helping you build more solid relationships. They are your current customers that have purchased parts from you recently. These shops are identified as [Your GM Parts Customers](#), labeled in blue, and allows participants to select them as part of their audience. If you previously selected a mile radius, these shops will automatically be added and could increase your magazine quantity. If you would like to change this, please go to the Audience tab to update. If you are a Direct Account, we can import your customers on your behalf as well. You will need provide a list to: support@ccainsights.com.

An audience selection guide walks you through this section in a little more detail, if you need assistance. **If you are NEWLY ENROLLED**, your audience was setup with a 35-mile radius to start. If you are comfortable sending magazines to customers in a 35-mile radius, there will be no further action required. Otherwise, we suggest you make updates to the audience when you receive our notifications.

In this section of the site, you will be choosing:

MILE RADIUS

You will be choosing the mile radius from your business outward to your customers — it is the area you service and will be used to help shape the audience we send your communications to. Make sure to choose a radius and click on **UPDATE RADIUS** each time you make a different selection.

AUDIENCE SELECTIONS

Here, you will select the audience for your print communications, specifically for the *Service* and *Repair Insights* magazines. To begin, click on either **SERVICE INSIGHTS MAGAZINE** or **REPAIR INSIGHTS MAGAZINE**. You will then see a drop-down menu of business categories. Choose one at a time to view your audience on the right side. Reminder: New database selections are under the [Your GM Parts Customers](#) category in blue.

You are given the opportunity to add all, add none or be selective from this audience. Make sure to choose **UPDATE AUDIENCE** each time you make selection choices. You also can add any businesses you may want to send the magazine to, or you can send/email a simple Excel spreadsheet to our program HQ to be added for you. You can also print your audience selections from this page.
